Verbal Ability and Reading Comprehension

DPP: 4

Para-Jumbles (MCQ)

Q1 Carefully read the statements in the questions below and arrange them in a logical order of sequence meaningfully.

1. Different strategies have been identified by different agencies all aimed at reducing poverty.
 2. This view may disqualify the view based on a distribution strategy, which suggests that reducing poverty can be achieved by decreasing per capita growth.
 3. Some analysts argue that more assets and income equity from the beginning can enhance the rate of growth.
 4. One central strategy that is often considered is to reduce poverty by accelerating economic growth.
 5. For the effective achievement of these targets, different policies are required.

Q2 Carefully read the statements in the questions below and arrange them in a logical order of sequence meaningfully.

1. The architectural design of the building is the brainchild of the firm McKim, Mead, and White.
 2. The building of my choice is the Boston Symphony Hall, which is located at 301 Massachusetts Avenue, Boston Massachusetts.
 3. The architectural motivation behind the building is well represented by its current majestic stance.
 4. The building looks 'young' in its current environment although it was completed in 1900.
 5. The building was affected by Boston City's transport infrastructure at the close of the 1800s, hence its current design.

Q3 Carefully read the statements in the questions below and arrange them in a logical order of sequence meaningfully.

1. SWAT squad snipers and police diplomats surrounded the bus as reporters and viewers watched the ordeal unfold for about four hours.
 2. Bus 174 documentary by Padilha is a compelling film that communicates the facts about the disastrous and risky consequences of one juvenile man's scarceness, exposure to ferocity, and ruthless handling while in custody.
 3. When Sandro holds the bus and its passengers hostage, the media transmits it live for all to watch, a feature of direct cinema.
 4. The documentary employs features of camera verité and direct cinema to tell the story of Sandro, a homeless man who hijacked a bus in Rio de Janeiro in 2000.
 5. The film uses the incident to raise awareness about the issues faced by homeless individuals and the consequences of neglecting these

Q4 Carefully read the statements in the questions below and arrange them in a logical order of sequence meaningfully.

1. The Enron Corporation was an American energy-based corporation based in Houston Texas, it was one of the world's leading companies in the fields of pulp and paper, electricity, communications, and natural gas.
 2. The Enron scandal highlighted the need for stricter corporate governance and oversight in

order to prevent future accounting frauds.

3. In the ensuing investigations, the companies involved caused serious challenges as the suit led to the dissolution of the Arthur Andersen accounting firm.

4. The company collapsed in 2001, according to company directors and Wall Street reports the company filed for bankruptcy in 2001 after it was revealed that its perceived financial position was mostly sustained by institutionalized and systematic accounting frauds.

Q5 Carefully read the statements in the questions below and arrange them in a logical order of sequence meaningfully.

1. The first of these is the payment history, which makes up 35% of the credit score and shows whether a person pays his obligations on time.

2. The total amount owed is 30% and considers the percentage of credit available to the person currently being used, which is known as credit drawdown.

3. There are three major credit reporting agencies in the United States, namely Experian, Equifax, and Transunion, that report, update, and store consumer credit histories.

4. While there may be differences in the information collected by the three credit bureaus, five main factors are considered when calculating a credit score.

5. The length of the credit history is 15%, while longer credit histories are considered less risky since there is more data to determine the payment history.

Q6 Carefully read the statements in the questions below and arrange them in a logical order of sequence meaningfully.

1. The average value of transactions in e-commerce has been rising rapidly.

2. E-commerce websites are likely to overtake physical stores in terms of customer traffic in the near future.

3. In response, companies have invested heavily in enhancing their digital infrastructure and supply chains.

4. E-commerce has grown exponentially in the last few years, and the trend is set to continue.

5. The pandemic has only accelerated this shift, as more consumers have started shopping online.

Q7 Carefully read the statements in the questions below and arrange them in a logical order of sequence meaningfully.

1. In this paper, both similarities and differences of the three perspectives of psychology will be considered.

2. Both functionalism and structuralism are similar in that they explore the human mind and consider the conscious self.

3. The two perspectives of psychology namely structuralism and functionalism are mentalisms which means that the mind is the main issue of every study.

4. On the other hand, behaviorism is a theme that suggests that behavior can be explained without necessary referring to the mental activities.

5. The three are therefore different in how the mind is viewed.

| (C) 34512 | (D) 42135 |

Q8 Carefully read the statements in the questions below and arrange them in a logical order of sequence meaningfully.

1. While psychologists argue that virtually any factor can contribute to a suicide attempt,

[Android App](#)

| [iOS App](#)

| [PW Website](#)

young people feel overwhelmed with the speed of modern life.

2. Nevertheless, none of the reasons are more important than the stress that young people are exposed to today.

3. There are many reasons why teens and young people commit suicide.

4. Nancy Merritt notes that the romantic image of suicide motivates many young people to kill themselves.

5. In other words, teenagers have to deal with enormous pressure and stress every day.

Q9 Carefully read the statements in the questions below and arrange them in a logical order of sequence meaningfully.

1. Contemporary changes in lifestyle and the rise of technology have made it difficult for most families to realize this objective.

2. The objective is to raise well-behaved and independent children who are responsible for their lives

3. Scholars have identified three factors that are contributing to deteriorating behaviors among children.

4. The inability by most parents to attain work-family balance has led to the emergence of a generation of children who are ill-behaved.

Q10 Carefully read the statements in the questions below and arrange them in a logical order of sequence meaningfully.

1. Self-acceptance refers to promoting the positive concept of self, which is considered to contribute to relationships among people.

2. Increased self-acceptance makes people more confident and empowered while also encouraging them to take responsibility and engage in continuous self-development.

3. Self-awareness is an integral part of human relations because it affects how people see their role in the group and their behaviors.

4. Developing self-awareness also results in increased emotional intelligence, which is pivotal to good interpersonal relationships.

5. These outcomes can make a powerful impact on a person's perception of work and their role in an organization.

Q11 Carefully read the statements in the questions below and arrange them in a logical order of sequence meaningfully.

1. The primary concern of personality is on the most noticeable parts of human's psychological life.

2. Several definitions have come up to describe personality psychology.

3. Most of these have mainly focused on the mental state of individuals.

4. The noticeable parts of an individual form its main elements

Q12 Carefully read the statements in the questions below and arrange them in a logical order of sequence meaningfully.

1. According to the researchers, the presence of a figure empowered to give orders to other participants in the process had a tremendous impact on the latter.

2. The cruel experiment conducted by Stanley Milgram is an explicit example of the initiatives which are opposed to all possible ethical

considerations.

3. They tend to do whatever their leader says without attempting to disobey the instructions regardless of how unethical they were.

Q13 Carefully read the statements in the questions below and arrange them in a logical order of sequence meaningfully.

Q14 Carefully read the statements in the questions below and arrange them in a logical order of sequence meaningfully.

Q15

Carefully read the statements in the questions below and arrange them in a logical order of sequence meaningfully.

Q16 Carefully read the statements in the questions below and arrange them in a logical order of sequence meaningfully.

1. According to Kreiss, through the Allergy of the cave, the allergy is presented as the sense in which we reveal our world, yet it is actually not exactly that.
 2. An intellectual approach can comprehensively depict our viewpoint about our perception and insight about our world.
 3. Plato, a philosopher used symbolism to draw out the meaning of human's mental quagmire as humans attempt to redefine objectiveness in life.
 4. Enlightenment, according to Plato provides wisdom and direction courtesy of intellectual within the society.
 5. Intellectualism is put on the spot as core in making the society enlightened.

(C) 52341

(D) 42315

Q17 Carefully read the statements in the questions below and arrange them in a logical order of sequence meaningfully. [TITA]

1. God sees everything at once and presents people the freedom to choose between the good predetermined by him or the evil.
2. Thus, despite of the certain criticism of fatalism, it is acknowledged as the concept that dominates the existence of the mankind.
3. God exists outside the temporal relations and cannot determine anything for past or future.
4. Going of a soul to Hell or Heaven is predetermined not by actions of a person but by God's decision made before the birth of the person.

(A) 3142

(B) 1324

(C) 2431

(D) 3124

Q18 Carefully read the statements in the questions below and arrange them in a logical order of sequence meaningfully.

1. The individual awaiting trial was able to submit a specific amount of funds in exchange for obtaining freedom to stay at a place of their choosing before the court appointment.
2. The system of bail was initially based on a guarantee strategy.
3. Such actions cause detrimental consequences for various involved parties, for example, bondsman and the bonding agencies, as well as constructing the need to detain the same person another time.
4. While the concept behind the bailing strategy seems logical, in practice, it is inefficient, lacking additional affirmation of the incarcerating's responsibility.
5. However, current research states that bail payment is not a secure assurance that this

person will appear at their trial, as most accused decide to miss the appointed date and time, evading the justice system.

Q20 Carefully read the statements in the questions below and arrange them in a logical order of sequence meaningfully.

1. Like all futures, these contracts are an arrangement for purchasing a predefined set of securities at a specific point in the future for an agreed-upon price.
2. Interest rate futures are a type of futures contract that uses an interest-bearing instrument as the underlying asset.
3. The underlying assets could range from short-term obligations to 30-year treasury bonds.

Q21 Carefully read the statements in the questions below and arrange them in a logical order of sequence meaningfully.

Q22 Carefully read the statements in the questions below and arrange them in a logical order of sequence meaningfully.

1. Expensive growth stock is a stock that trades at a higher price relative to its book value, cash flow, and earnings, and dividends are expected to be faster than average growth in the future for efficient markets.
 2. In an efficient market within the short and long term, expensive stocks are expected to yield high returns on investment.
 3. That is why investors are usually attracted to purchase expensive stocks.
 4. On the other hand, cheap stock has a cheap price relative to its book value, cash flow,

and earnings, and dividends are expected to have slower-than-average growth in the future in efficient markets.

Q23 Carefully read the statements in the questions below and arrange them in a logical order of sequence meaningfully.

1. Since the 20th century, the companies in the United States of America allowed government agencies to regulate them.
 2. The Florida state also determined the kind of non-utility businesses that a utility company would enter.
 3. It has also ventured into other investment opportunities.
 4. FPL Group is a publicly owned company in the state of Florida that deals with the generation, transmission, and distribution of electricity.
 5. FPL acquired other companies so that it can also offer Insurance policies, cable television services, and fruit processing and started the real estate business.

Q24 Carefully read the statements in the questions below and arrange them in a logical order of sequence meaningfully.

1. During the 2008 financial crisis, the majority of investors withdrew a large quantity of their invested funds resulting in a rare occurrence known as the 'breaking the buck', which is a liquidity phenomenon where the value of share prices drops below the required minimum of \$1.
 2. For a long time, MMMF had been taken as a perfect substitute for deposits due to their capability of holding the value of the share at \$1.

Q25 Carefully read the statements in the questions below and arrange them in a logical order of sequence meaningfully.

1. According to the National Coalition Against Domestic Violence, the victims of domestic abuse do not report abuse because they are either afraid that their intimate partners can cause harm to them or their families.

2. The victims of domestic abuse do not report abuse because they are concerned about their socio-economic status after they report abuse and leave the house.

3. According to the statistics, more than 1 in 5 women and 1 in 7 men have experienced severe physical abuse at least once, whereas thousands of people nationwide suffered from sexual violence and stalking by intimate partners.

4. The procedure of domestic abuse prosecution is an extremely challenging endeavor due to the nature of accusations that the defense can easily justify.

5. The minority of these cases are brought to prosecution because the victim is afraid of their intimate partner.

Q26

Carefully read the statements in the questions below and arrange them in a logical order of sequence meaningfully.

Q27 Carefully read the statements in the questions below and arrange them in a logical order of sequence meaningfully.

Q28

Carefully read the statements in the questions below and arrange them in a logical order of sequence meaningfully.

Q29 Carefully read the statements in the questions below and arrange them in a logical order of sequence meaningfully.

1. The company wants to embark on a migration project in which Tonya's chips hosting would be changed from external to internal hosting.
 2. Tonya's chips is a website that deals with the sale of their products online that was purchased by an independent company.
 3. The independent company that did the purchasing does its own internal hosting.

Hints & Solutions

Q1 Text Solution:

Essence of the question:

Here five sentences are given which are not in order. We need to arrange them in proper sequence so that a meaningful paragraph can be formed. We shall select an option which provides correct ordering of given sentences.

Explanation for the answer:

The correct sequence is 15432. This sequence is correct because it presents a logical progression of ideas. First sentence establishes that different strategies have been identified for reducing poverty by different agencies. Next, it explains that for the effective achievement of these targets, different policies are required in sentence 5. The fourth statement introduces the idea of a central strategy that is often considered, which is to reduce poverty by accelerating economic growth. The fourth statement presents a counterargument; some analysts argue that more assets and income equity from the beginning can enhance the rate of growth in the third sentence. The second statement concludes that this view may disqualify the view based on a distribution strategy, which suggests that reducing poverty can be achieved by decreasing per capita growth. The sequence is logical as it progresses from the general concept of poverty reduction strategies to the specific strategy of reducing poverty by accelerating economic growth and then compares it with the distribution strategy, and how it may disqualify the other strategy.

Trap of the Question:

Para-jumbles are often tricky as even a single misplaced statement can make the whole answer wrong. The trap is often placed in some sentences which seem to possibly take 2 positions. This increases the chances of a faulty selection. Candidates must carefully follow the

most logical and contextually coherent chain of thoughts to answer these questions.

Q2 Text Solution:

Essence of the question:

Here five sentences are given which are not in order. We need to arrange them in proper sequence so that a meaningful paragraph can be formed. We shall select an option which provides correct ordering of given sentences.

Explanation for the answer:

The correct sequence is 21453. This sequence is correct because it presents a logical progression of ideas. Firstly, sentence 2 establishes the building of my choice is the Boston Symphony Hall, which is located at 301 Massachusetts Avenue, Boston Massachusetts. Next, sentence 1 explains that the architectural design of the building is the brainchild of the firm McKim, Mead, and White. The fourth statement highlights how the building looks 'young' in its current environment although it was completed in 1900. The fifth statement explains that the building was affected by Boston City's transport infrastructure at the close of the 1800s, hence its current design. Finally, the third statement states that the architectural motivation behind the building is well represented by its current majestic stance. The sequence is logical as it progresses from identifying the building of my choice, to explaining its architectural design, the age of the building, the reason behind its design, and how the architectural motivation behind the building is well represented by its current majestic stance.

Trap of the Question:

Para-jumbles are often tricky as even a single misplaced statement can make the whole answer wrong. The trap is often placed in some sentences which seem to possibly take 2 positions. This increases the chances of a faulty

[Android App](#)

| [iOS App](#)

| [PW Website](#)

selection. Candidates must carefully follow the most logical and contextually coherent chain of thoughts to answer these questions.

Q3 Text Solution:

Essence of the question:

Here five sentences are given which are not in order. We need to arrange them in proper sequence so that a meaningful paragraph can be formed. We shall select an option which provides correct ordering of given sentences.

Explanation for the answer:

The correct sequence is 24315. This sequence is correct because it presents a logical progression of ideas. Firstly sentence two establishes that the Bus 174 documentary by Padilha is a compelling film that communicates the facts about the disastrous and risky consequences of one juvenile man's scariness, exposure to ferocity, and ruthless handling while in custody. Next, sentence 4 explains that the documentary employs feature of camera vérité and direct cinema to tell the story of Sandro, a homeless man who hijacked a bus in Rio de Janeiro in 2000. The third statement highlights how when Sandro holds the bus and its passenger's hostage, the media transmits it live for all to watch, a feature of direct cinema. The first statement explains how SWAT squad snipers and police diplomats surrounded the bus as reporters and viewers watched the ordeal unfold for about four hours. Finally, the fifth statement states that the film uses the incident to raise awareness about the issues faced by homeless individuals and the consequences of neglecting these issues. The sequence is logical as it progresses from introducing the documentary and its purpose, to explaining the techniques used to tell the story of Sandro, to describing the events that occurred during the hijacking, and finally, how the film uses the incident to raise awareness about the issues faced by homeless individuals

and the consequences of neglecting these issues.

Trap of the Question:

Para-jumbles are often tricky as even a single misplaced statement can make the whole answer wrong. The trap is often placed in some sentences which seem to possibly take 2 positions. This increases the chances of a faulty selection. Candidates must carefully follow the most logical and contextually coherent chain of thoughts to answer these questions.

Q4 Text Solution:

Essence of the question:

Here five sentences are given which are not in order. We need to arrange them in proper sequence so that a meaningful paragraph can be formed. We shall select an option which provides correct ordering of given sentences.

Explanation for the answer:

The correct sequence is 1432. This sequence is correct because it presents a logical progression of ideas. The first sentence establishes that the Enron Corporation was an American energy-based corporation based in Houston Texas, it was one of the world's leading companies in the fields of pulp and paper, electricity, communications, and natural gas. Next, sentence 4 explains that the company collapsed in 2001, according to company directors and Wall Street reports the company filed for bankruptcy in 2001 after it was revealed that its perceived financial position was mostly sustained by institutionalized and systematic accounting frauds. The third statement highlights how in the ensuing investigations, the companies involved caused serious challenges as the suit led to the dissolution of the Arthur Andersen accounting firm. Finally, the second statement states that the Enron scandal highlighted the need for stricter corporate governance and oversight in order to prevent future accounting frauds. The sequence is logical as it progresses from introducing the

[Android App](#)

| [iOS App](#)

| [PW Website](#)

company, to explaining the reason for its collapse, the investigation and their implications, to the need for stricter regulations to prevent future accounting frauds.

Trap of the Question:

Para-jumbles are often tricky as even a single misplaced statement can make the whole answer wrong. The trap is often placed in some sentences which seem to possibly take 2 positions. This increases the chances of a faulty selection. Candidates must carefully follow the most logical and contextually coherent chain of thoughts to answer these questions.

Q5 Text Solution:

Essence of the question:

Here five sentences are given which are not in order. We need to arrange them in proper sequence so that a meaningful paragraph can be formed. We shall select an option which provides correct ordering of given sentences.

Explanation for the answer:

The correct sequence is 34125. This sequence is correct because it presents a logical progression of ideas. Firstly, sentence 3 establishes that there are three major credit reporting agencies in the United States that report, update, and store consumer credit histories. Next, sentence 4 explains that while there may be differences in the information collected by the three credit bureaus, five main factors are considered when calculating a credit score. The first statement highlights the first factor, which is the payment history, which makes up 35% of the credit score and shows whether a person pays his obligations on time. The second statement explains the second factor, which is the total amount owed, which is 30% and considers the percentage of credit available to the person currently being used, known as credit drawdown. The fifth statement explains the third factor, which is the length of the credit history, which is 15% and longer credit histories are considered less risky since there is

more data to determine the payment history. The sequence is logical as it progresses from introducing the credit reporting agencies, to explaining the factors considered when calculating a credit score, to explaining each of the factors in detail, starting with the most important one, payment history.

Trap of the Question:

Para-jumbles are often tricky as even a single misplaced statement can make the whole answer wrong. The trap is often placed in some sentences which seem to possibly take 2 positions. This increases the chances of a faulty selection. Candidates must carefully follow the most logical and contextually coherent chain of thoughts to answer these questions.

Q6 Text Solution:

Essence of the question:

Here five sentences are given which are not in order. We need to arrange them in proper sequence so that a meaningful paragraph can be formed. We shall select an option which provides correct ordering of given sentences.

Explanation for the answer:

The paragraph is discussing the growth of e-commerce and its impact on businesses. Sentence 4 provides the context for the paragraph and should be the first sentence. Sentence 5 provides a reason for the growth of e-commerce and should follow sentence 4. Sentence 1 supports the idea presented in sentence 5 and should follow it. Sentence 3 provides a response to the growth of e-commerce and should come next. Finally, sentence 2 provides a concluding statement and should be the last sentence. Thus, the correct order is 45132. Hence, option A is correct.

Trap of the Question:

Para-jumbles are often tricky as even a single misplaced statement can make the whole answer wrong. The trap is often placed in some sentences which seem to possibly take 2

[Android App](#)

| [iOS App](#) | [PW Website](#)

positions. This increases the chances of a faulty selection. Candidates must carefully follow the most logical and contextually coherent chain of thoughts to answer these questions.

Q7 Text Solution:

Essence of the question:

Here five sentences are given which are not in order. We need to arrange them in proper sequence so that a meaningful paragraph can be formed. We shall select an option which provides correct ordering of given sentences.

Explanation for the answer:

The correct sequence is 34512. This sequence is correct because it presents a logical progression of ideas. Firstly, sentence 3 establishes that structuralism and functionalism are mentalisms, meaning that the mind is the main issue of every study. Next, sentence 4 explains that behaviorism is a theme that suggests that behavior can be explained without referring to the mental activities. The fifth statement highlights that the three perspectives are different in how the mind is viewed. The first statement states that in this paper, both similarities and differences of the three perspectives of psychology will be considered. The second statement states that both functionalism and structuralism are similar in that they explore the human mind and consider the conscious self. The sequence is logical as it progresses from introducing the three perspectives of psychology, to explaining the difference in how the mind is viewed, to stating the focus of the paper, and finally, to the similarity between functionalism and structuralism.

Trap of the Question:

Para-jumbles are often tricky as even a single misplaced statement can make the whole answer wrong. The trap is often placed in some sentences which seem to possibly take 2 positions. This increases the chances of a faulty selection. Candidates must carefully follow the

most logical and contextually coherent chain of thoughts to answer these questions.

Q8 Text Solution:

Essence of the question:

Here five sentences are given which are not in order. We need to arrange them in proper sequence so that a meaningful paragraph can be formed. We shall select an option which provides correct ordering of given sentences.

Explanation for the answer:

The correct sequence is 32514. This sequence is correct because it presents a logical progression of ideas. Firstly, sentence 3 establishes that there are many reasons why teens and young people commit suicide. Next, sentence 2 states that none of the reasons are more important than the stress that young people are exposed to today. The fifth statement highlights that teenagers have to deal with enormous pressure and stress every day. The first statement explains that while psychologists argue that virtually any factor can contribute to a suicide attempt, young people feel overwhelmed with the speed of modern life. The fourth statement cites Nancy Merritt's research, which notes that the romantic image of suicide motivates many young people to kill themselves. The sequence is logical as it progresses from introducing the topic of teen suicide, to stating that stress is the most important reason, to explaining the impact of stress on teenagers, to describing how any factor can contribute to suicide, and finally, to the specific research that shows that the romantic image of suicide motivates many young people to kill themselves.

Trap of the Question:

Para-jumbles are often tricky as even a single misplaced statement can make the whole answer wrong. The trap is often placed in some sentences which seem to possibly take 2 positions. This increases the chances of a faulty selection. Candidates must carefully follow the

[Android App](#)

| [iOS App](#)

| [PW Website](#)

most logical and contextually coherent chain of thoughts to answer these questions.

Q9 Text Solution:

Essence of the question:

Here five sentences are given which are not in order. We need to arrange them in proper sequence so that a meaningful paragraph can be formed. We shall select an option which provides correct ordering of given sentences.

Explanation for the answer:

The correct sequence is 2143. The sequence is logical as it starts with the objective of raising well-behaved children, as sentence 2 introduces the topic, it should be the first one. Sentence 1 then explains the challenges that have made it difficult for families to achieve this objective, and next sentence four points out the current state of affairs where parents are struggling to balance work and family, which has led to the emergence of a generation of ill-behaved children. Finally, sentence 3 concludes by mentioning the factors that are contributing to this trend.

Trap of the Question:

Para-jumbles are often tricky as even a single misplaced statement can make the whole answer wrong. The trap is often placed in some sentences which seem to possibly take 2 positions. This increases the chances of a faulty selection. Candidates must carefully follow the most logical and contextually coherent chain of thoughts to answer these questions.

Q10 Text Solution:

Essence of the question:

Here five sentences are given which are not in order. We need to arrange them in proper sequence so that a meaningful paragraph can be formed. We shall select an option which provides correct ordering of given sentences.

Explanation for the answer:

The correct sequence 34125. This sequence is logical because it explains the process of how self-awareness can lead to increased

emotional intelligence and self-acceptance, and ultimately have a positive impact on a person's relationships and perception of work. The third statement introduces the concept of self-awareness and its importance in human relations. The fourth statement explains how developing self-awareness leads to increased emotional intelligence, which is important for good interpersonal relationships. The first statement defines self-acceptance and how it is related to relationships among people. The second statement explains how increased self-acceptance can lead to increased confidence, empowerment, and self-development. The fifth statement connects the previous concepts to the impact on a person's perception of work and role in an organization and it should be the last one.

Trap of the Question:

Para-jumbles are often tricky as even a single misplaced statement can make the whole answer wrong. The trap is often placed in some sentences which seem to possibly take 2 positions. This increases the chances of a faulty selection. Candidates must carefully follow the most logical and contextually coherent chain of thoughts to answer these questions.

Q11 Text Solution:

Essence of the question:

Here five sentences are given which are not in order. We need to arrange them in proper sequence so that a meaningful paragraph can be formed. We shall select an option which provides correct ordering of given sentences.

Explanation for the answer:

The correct sequence is 51423. This sequence is correct because it progresses from defining what personality psychology is, to discussing the main focus of the field (the most noticeable parts of human's psychological life), to how those noticeable parts form the main elements of an individual's personality, to various definitions that have been proposed for the

[Android App](#)

| [iOS App](#)

| [PW Website](#)

field and finally to the fact that most definitions focus on the mental state of individuals. Sentence 5 introduces the topic personality psychology, so it should be the first sentence, sentence 1 carries the same concept, so it should be the next one. The 4th one talks about its main elements. Sentence 2 says that there are several definitions on personality psychology and 3rd says that most of them focus on the mental state of individuals. Thus, 2 and 3 are connected and 3 follows 2.

Trap of the Question:

Para-jumbles are often tricky as even a single misplaced statement can make the whole answer wrong. The trap is often placed in some sentences which seem to possibly take 2 positions. This increases the chances of a faulty selection. Candidates must carefully follow the most logical and contextually coherent chain of thoughts to answer these questions.

Q12 Text Solution:

Essence of the question:

Here five sentences are given which are not in order. We need to arrange them in proper sequence so that a meaningful paragraph can be formed. We shall select an option which provides correct ordering of given sentences.

Explanation for the answer:

The correct sequence is 2413. The logical sequence of these statements is in the order of the background of the experiment, the purpose of the experiment, the results of the experiment and the conclusion drawn from the experiment. The second statement gives a brief overview of the Milgram experiment, which is an unethical initiative. The fourth statement explains that despite its unethical nature, the experiment provided invaluable results. Here 'it' represents experiment, so 4 follows 2. The first statement goes on to explain the results in detail, specifically mentioning the significant impact of the figure of authority on the participants. As the 4th one talks about a figure of authority

and sentence 1 says that a figure empowered to give orders, shows that they are connected and 1 follows 4. The third statement concludes by emphasizing the extent to which the participants were willing to obey the instructions, regardless of their unethical nature.

Trap of the Question:

Para-jumbles are often tricky as even a single misplaced statement can make the whole answer wrong. The trap is often placed in some sentences which seem to possibly take 2 positions. This increases the chances of a faulty selection. Candidates must carefully follow the most logical and contextually coherent chain of thoughts to answer these questions.

Q13 Text Solution:

Essence of the question:

Here five sentences are given which are not in order. We need to arrange them in proper sequence so that a meaningful paragraph can be formed. We shall select an option which provides correct ordering of given sentences.

Explanation for the answer:

The first sentence (2) provides background information about the company, stating how long it has been in business. The next sentence (1) then goes on to mention the company's reputation for providing excellent customer service, which is a result of the company being in business for a long time, here 'it' represents company, so 1 follows 2. The next sentence (4) highlights the company's focus on high-quality products, which is also a result of being in business for a long time. The following sentence (5) talks about the company's dedicated team of employees who are committed to satisfying customer needs, which is also a result of the company's focus on high-quality products and excellent customer service, therefore 5 follows 4. Finally, sentence (3) talks about the company's loyal customers, which is a result of the company's reputation for providing excellent customer service, high-quality products, and a

[Android App](#)

| [iOS App](#)

| [PW Website](#)

dedicated team of employees. As it provides a proper closing to the paragraph, it should be the last one. Thus the correct sequence is 21453.

Trap of the Question:

Para-jumbles are often tricky as even a single misplaced statement can make the whole answer wrong. The trap is often placed in some sentences which seem to possibly take 2 positions. This increases the chances of a faulty selection. Candidates must carefully follow the most logical and contextually coherent chain of thoughts to answer these questions.

Q14 Text Solution:

Essence of the question:

Here five sentences are given which are not in order. We need to arrange them in proper sequence so that a meaningful paragraph can be formed. We shall select an option which provides correct ordering of given sentences.

Explanation for the answer:

The correct sequence is 24315. The sequence is correct as it follows the logical order of the passage. The second statement introduces the allegory of the cave and the person who escapes it. The fourth statement explains the effect of the person leaving the cave and how he becomes free of perceptions and biases. As it discusses the same idea of cave, it is the next sentence, 4 follows 2. The third statement describes the advantage of the person being able to communicate with people outside the cave, it carries the idea of caves which is discussed in 4th sentence, thus it should be the next one. The first statement introduces the disadvantage of the population being manipulated by beliefs and the fifth statement poses a question of what would happen if a cave were connected to another one. It gives an idea of the question as well as it closes the paragraph by placing such doubtful lines.

Trap of the Question:

Para-jumbles are often tricky as even a single misplaced statement can make the whole

answer wrong. The trap is often placed in some sentences which seem to possibly take 2 positions. This increases the chances of a faulty selection. Candidates must carefully follow the most logical and contextually coherent chain of thoughts to answer these questions.

Q15 Text Solution:

Essence of the question:

Here five sentences are given which are not in order. We need to arrange them in proper sequence so that a meaningful paragraph can be formed. We shall select an option which provides correct ordering of given sentences.

Explanation for the answer:

The correct sequence 41523. This sequence is logical because it starts with the main objective of fire safety (life safety) and then goes on to explain how this objective is achieved through the provision of an escape route for building inhabitants. As sentence 4 talks about life safety and 1 discusses how to escape from building in order to safe life, shows that 1 follows 4. Sentence 5 then highlights that the focus is on protecting people rather than property and sentence 2 explains the technical standards that have been developed to ensure the safe escape of building inhabitants. It means 2 follows 5. Finally, sentence 3 enumerates the different stages of escape that are covered by these technical standards.

Trap of the Question:

Para-jumbles are often tricky as even a single misplaced statement can make the whole answer wrong. The trap is often placed in some sentences which seem to possibly take 2 positions. This increases the chances of a faulty selection. Candidates must carefully follow the most logical and contextually coherent chain of thoughts to answer these questions.

Q16 Text Solution:

Essence of the question:

Here five sentences are given which are not in order. We need to arrange them in proper

[Android App](#)

| [iOS App](#)

| [PW Website](#)

sequence so that a meaningful paragraph can be formed. We shall select an option which provides correct ordering of given sentences.

Explanation for the answer:

The correct sequence is 31254. This sequence is logical because it presents a clear progression of ideas, starting with sentence 3 that discusses Plato's use of symbolism, and then sentence 1 moves on to the concept of the allegory of the cave, so 1 follows 3 and sentence 2 says how it relates to human perception and understanding. This means that 2 follows 1. Sentence 5 discusses the role of intellectualism in society and enlightenment. Sentence 4 discusses enlightenment as described by Plato, can provide wisdom and direction within society, shows that 4 follows 5. The sequence flows smoothly and logically, with each statement building on the one before it to create a cohesive and coherent narrative.

Trap of the Question:

Para-jumbles are often tricky as even a single misplaced statement can make the whole answer wrong. The trap is often placed in some sentences which seem to possibly take 2 positions. This increases the chances of a faulty selection. Candidates must carefully follow the most logical and contextually coherent chain of thoughts to answer these questions.

Q17 Text Solution:

Essence of the question:

Here five sentences are given which are not in order. We need to arrange them in proper sequence so that a meaningful paragraph can be formed. We shall select an option which provides correct ordering of given sentences.

Explanation for the answer:

The correct sequence is 3142. The logical sequence of the statements is that third, statement one is discussing the nature of God and how he exists outside of time and doesn't determine anything for the past or future. The first statement is building on this by discussing

how God sees everything at once and presents people with the freedom to choose between good and evil. Thus, 1 follows 3. The fourth statement is discussing the consequence of these choices and how the fate of a soul is predetermined by God's decision made before the person is born, so 4 follows 1. Lastly, statement two discusses how despite criticism, fatalism is acknowledged as a concept that dominates the existence of mankind.

Trap of the Question:

Para-jumbles are often tricky as even a single misplaced statement can make the whole answer wrong. The trap is often placed in some sentences which seem to possibly take 2 positions. This increases the chances of a faulty selection. Candidates must carefully follow the most logical and contextually coherent chain of thoughts to answer these questions.

Q18 Text Solution:

Essence of the question:

Here five sentences are given which are not in order. We need to arrange them in proper sequence so that a meaningful paragraph can be formed. We shall select an option which provides correct ordering of given sentences.

Explanation for the answer:

The correct sequence is 21534. The logical sequence of the statements is that second, statement one is discussing the origin of the bail system and how it is based on a guarantee strategy. The first statement is building on this by discussing how an individual awaiting trial is able to submit a specific amount of funds in exchange for freedom before the court appointment. The fifth statement is discussing the current research that states that bail payment is not a secure assurance that the person will appear at their trial as most accused decide to miss the appointed date and time, evading the justice system. The third statement is discussing the detrimental consequences that such actions cause for

various involved parties and the need to detain the same person again. Finally, statement four is discussing how while the concept behind the bailing strategy seems logical, it is inefficient in practice, lacking additional affirmation of the incarcerating's responsibility. This sequence is logical because the statements build on each other, discussing the origin of the bail system, how it works, current research, consequences of not appearing at the trial and finally discussing the inefficiency of the system in practice. The sequence follows a logical flow of ideas and doesn't jump around between unrelated concepts.

Trap of the Question:

Para-jumbles are often tricky as even a single misplaced statement can make the whole answer wrong. The trap is often placed in some sentences which seem to possibly take 2 positions. This increases the chances of a faulty selection. Candidates must carefully follow the most logical and contextually coherent chain of thoughts to answer these questions.

Q19 Text Solution:

Essence of the question:

Here five sentences are given which are not in order. We need to arrange them in proper sequence so that a meaningful paragraph can be formed. We shall select an option which provides correct ordering of given sentences.

Explanation for the answer:

The correct sequence is 24351. The logical sequence of the statements is that first, second statement is discussing the research that was done to gather accurate and up-to-date information on the topic of investing for retirement. The fourth statement is building on this by discussing how retirement funding involves using a variety of resources to ensure income is diversified. The third statement is discussing how the process of investing for retirement is complex and requires understanding. The fifth statement is discussing

the purpose of the presentation, which is to educate about the strategies that can be taken to start investing for retirement to guarantee a stable future. Finally, statement one is discussing the specific strategies that will be discussed in the presentation, such as determining the amount that needs to be saved, which resources to use, and financial details of asset allocation. This sequence is logical because the statements build on each other, discussing the research done, the concept of retirement funding, the complexity of the process, the purpose of the presentation, and the specific strategies that will be discussed. The sequence follows a logical flow of ideas and doesn't jump around between unrelated concepts.

Trap of the Question:

Para-jumbles are often tricky as even a single misplaced statement can make the whole answer wrong. The trap is often placed in some sentences which seem to possibly take 2 positions. This increases the chances of a faulty selection. Candidates must carefully follow the most logical and contextually coherent chain of thoughts to answer these questions.

Q20 Text Solution:

Essence of the question:

Here five sentences are given which are not in order. We need to arrange them in proper sequence so that a meaningful paragraph can be formed. We shall select an option which provides correct ordering of given sentences.

Explanation for the answer:

The correct sequence is 25143. This sequence is logical because it starts with a general definition of interest rate futures, specifically mentioning that they are a type of futures contract with an interest-bearing instrument as the underlying asset. It then goes on to explain that these contracts are also known as financial derivatives and that they are similar to other futures contracts in that they involve

purchasing a set of securities at a specific point in the future for an agreed-upon price. Next, it explains how these contracts can be settled at the expiration date, either through cash or delivery of the underlying asset. Finally, it mentions that the underlying assets can range from short-term obligations to 30-year treasury bonds. This sequence of information provides a clear and logical explanation of what interest rate futures are, how they are similar to other futures contracts, and what the specifics of these contracts are.

Q21 Text Solution:

Essence of the question:

Here five sentences are given which are not in order. We need to arrange them in proper sequence so that a meaningful paragraph can be formed. We shall select an option which provides correct ordering of given sentences.

Explanation for the answer:

The correct sequence is 2143. This sequence is logical because it starts with sentence 2 by describing what a financial plan is and its purpose, which is to achieve specific investment goals within a given future period. The next sentence i.e. 1st one mentions Jossiah and Jemima Benson and their current situation of having money, time, strength, and opportunities but not yet deciding how to invest it. The fourth sentence goes into the factors that will affect their decision on how to apply the fund, such as their age, lifestyle and investment attitude. And the third sentence mention how there investment would also depend on their risk taking attitude. This sequence of information provides a clear and logical explanation of what a financial plan is and how it applies to the specific case of Jossiah and Jemima Benson and the factors that will influence their investment decisions.

Trap of the Question:

Para-jumbles are often tricky as even a single misplaced statement can make the whole

answer wrong. The trap is often placed in some sentences which seem to possibly take 2 positions. This increases the chances of a faulty selection. Candidates must carefully follow the most logical and contextually coherent chain of thoughts to answer these questions.

Q22 Text Solution:

Essence of the question:

Here five sentences are given which are not in order. We need to arrange them in proper sequence so that a meaningful paragraph can be formed. We shall select an option which provides correct ordering of given sentences.

Explanation for the answer:

The correct sequence is 1423. This sequence is logical because it starts with sentence 1 by describing what an expensive growth stock is and how it is valued in relation to its book value, cash flow, and earnings. It then sentence 4 contrasts this with a cheap stock, which is valued at a lower price relative to these metrics, and explains how dividends are expected to grow differently for these two types of stocks in efficient markets. The second sentence explains how in efficient markets, expensive stocks are expected to yield high returns on investment. And the third sentence provides context for why investors are attracted to expensive stocks, which is because they expect to earn high returns on investment, providing ending to the paragraph. This sequence of information provides a clear and logical explanation of the difference between expensive and cheap stocks, how they are valued, and how they are expected to perform in efficient markets and why investors are attracted to expensive stocks.

Trap of the Question:

Para-jumbles are often tricky as even a single misplaced statement can make the whole answer wrong. The trap is often placed in some sentences which seem to possibly take 2 positions. This increases the chances of a faulty selection. Candidates must carefully follow the

most logical and contextually coherent chain of thoughts to answer these questions.

Q23 Text Solution:

Essence of the question:

Here five sentences are given which are not in order. We need to arrange them in proper sequence so that a meaningful paragraph can be formed. We shall select an option which provides correct ordering of given sentences.

Explanation for the answer:

The correct sequence is 43125. This sequence is logical because it starts with sentence 4 by describing the main business of FPL Group, which is the generation, transmission, and distribution of electricity. The next sentence i.e. 3 mentions that it has also ventured into other investment opportunities. The next two sentences i.e. 1 and 2 explain the regulatory environment in which FPL operates, specifically mentioning that since the 20th century, companies in the United States have been regulated by government agencies and that the state of Florida has specific regulations for the non-utility businesses that a utility company can enter. The fifth sentence mentions how FPL has acquired other companies in order to expand its business offerings, specifically mentioning insurance policies, cable television services, fruit processing, and real estate. This sequence of information provides a clear and logical explanation of what FPL Group does, how it has expanded its business in response to regulatory environment, and what specific business ventures FPL has undertaken.

Trap of the Question:

Para-jumbles are often tricky as even a single misplaced statement can make the whole answer wrong. The trap is often placed in some sentences which seem to possibly take 2 positions. This increases the chances of a faulty selection. Candidates must carefully follow the

most logical and contextually coherent chain of thoughts to answer these questions.

Q24 Text Solution:

Essence of the question:

Here five sentences are given which are not in order. We need to arrange them in proper sequence so that a meaningful paragraph can be formed. We shall select an option which provides correct ordering of given sentences.

Explanation for the answer:

The correct sequence is 42135. This sequence is logical because it starts with 4th sentence by describing the significance of MMMF in the 2008 financial crisis and how it was used as a source of funding for short-term bank paper and repo agreements. The next sentence i.e. 2 explains how MMMF had long been considered a safe investment because it held the value of its shares at \$1. The 1st sentence explains that during the financial crisis, many investors withdrew large amounts of money, which led to a rare occurrence called "breaking the buck", in which the value of the shares dropped below \$1. The third sentence explains that this caused concern among investors and regulators. The fifth sentence explains that while the reasons for the fall in share prices were complex, it was one of the greatest systemic risks posed by MMMF to the investors and the economy during the 2008 financial crisis. This is logical because it summarizes the previous sentences by connecting the significance of MMMF in the financial crisis, the occurrence of "breaking the buck," and the concern it caused, to the overall systemic risk it posed to the economy. Additionally, it highlights the complexity of the situation and how it was one of the most significant risks of the crisis.

Trap of the Question:

Para-jumbles are often tricky as even a single misplaced statement can make the whole answer wrong. The trap is often placed in some sentences which seem to possibly take 2

positions. This increases the chances of a faulty selection. Candidates must carefully follow the most logical and contextually coherent chain of thoughts to answer these questions.

Q25 Text Solution:

Essence of the question:

Here five sentences are given which are not in order. We need to arrange them in proper sequence so that a meaningful paragraph can be formed. We shall select an option which provides correct ordering of given sentences.

Explanation for the answer:

The correct sequence is 35124. This sequence is correct because it presents the reasons why the procedure of domestic abuse prosecution is challenging. The third sentence states that domestic abuse cases are prevalent, but a minority is brought to prosecution. The next two statements i.e. fifth and first provide the reasons why victims do not report abuse, and the fourth statement reiterates the challenge of the procedure. This sequence is a logical flow of information and reason why the procedure is challenging.

Trap of the Question:

Para-jumbles are often tricky as even a single misplaced statement can make the whole answer wrong. The trap is often placed in some sentences which seem to possibly take 2 positions. This increases the chances of a faulty selection. Candidates must carefully follow the most logical and contextually coherent chain of thoughts to answer these questions.

Q26 Text Solution:

Essence of the question:

Here five sentences are given which are not in order. We need to arrange them in proper sequence so that a meaningful paragraph can be formed. We shall select an option which provides correct ordering of given sentences.

Explanation for the answer:

The correct sequence is 34152. This sequence is correct in that it starts with sentence three, an

overview of the concept of the pendulum model and how it applies to changes in the justice system over the past two decades. Sentence four then provides specific examples of changes in the justice system, including recent attempts to reduce criminal penalties and the fight against severe penalties in areas such as sentencing laws and solitary confinement. Finally, it notes how fluctuations in the death penalty and changes in policing have also played a role in the evolution of the justice system. The sequence flows logically from one point to the next, building on the information provided in previous statements to provide a clear and comprehensive overview of the topic at hand.

Trap of the Question:

Para-jumbles are often tricky as even a single misplaced statement can make the whole answer wrong. The trap is often placed in some sentences which seem to possibly take 2 positions. This increases the chances of a faulty selection. Candidates must carefully follow the most logical and contextually coherent chain of thoughts to answer these questions.

Q27 Text Solution:

Essence of the question:

Here five sentences are given which are not in order. We need to arrange them in proper sequence so that a meaningful paragraph can be formed. We shall select an option which provides correct ordering of given sentences.

Explanation for the answer:

The correct sequence is 1432. This sequence is correct because it progresses from explaining the general utility of Gantt charts to the specific ways in which they are useful. Firstly, sentence 1 states that Gantt charts are useful for keeping track of all vital activities related to a project, then sentence four explains how Gantt charts communicate a project timeline to stakeholders and sentence 3 says how it shows the order of tasks that need to be completed.

Finally, sentence 2 explains that Gantt charts graphically depict every task, and this allows managers to assess how much resources they will allocate to each one. This progression of information makes sense because it presents the general usefulness of Gantt charts and then drills down into the specific ways in which they are useful.

Trap of the Question:

Para-jumbles are often tricky as even a single misplaced statement can make the whole answer wrong. The trap is often placed in some sentences which seem to possibly take 2 positions. This increases the chances of a faulty selection. Candidates must carefully follow the most logical and contextually coherent chain of thoughts to answer these questions.

Q28 Text Solution:

Essence of the question:

Here five sentences are given which are not in order. We need to arrange them in proper sequence so that a meaningful paragraph can be formed. We shall select an option which provides correct ordering of given sentences.

Explanation for the answer:

The correct sequence is 2413. This sequence is correct as it follows a logical progression of the introduction of the concept of Agile methodology in the context of project management explained in sentence 2, followed by its application in the field of financial auditing within organizations in sentence 4. Sentence one mentions digitization highlights the reason behind the adoption of Agile methodologies in auditing, which is the need to keep up with technological advancements in the field. The final statement in sentence three ties everything together by emphasizing the significance of Agile methodologies in the digitized era of organizational processes.

Trap of the Question:

Para-jumbles are often tricky as even a single misplaced statement can make the whole

answer wrong. The trap is often placed in some sentences which seem to possibly take 2 positions. This increases the chances of a faulty selection. Candidates must carefully follow the most logical and contextually coherent chain of thoughts to answer these questions.

Q29 Text Solution:

Essence of the question:

Here five sentences are given which are not in order. We need to arrange them in proper sequence so that a meaningful paragraph can be formed. We shall select an option which provides correct ordering of given sentences.

Explanation for the answer:

The correct sequence is 24531. This sequence is correct because it presents a logical progression of events. The second statement establishes the main subject of the passage, the website Tonya's chips, and the fact that it was purchased by an independent company. The fourth statement provides background information on the current state of the website, that it was externally hosted. The fifth statement explains the implications of this, that the website did not have its own infrastructure in place. The third statement introduces the independent company that purchased the website and the fact that they do their own internal hosting. Finally, the first statement presents the goal of the migration project, to change the hosting of Tonya's chips from external to internal. This sequence of events is logical and clear.

Trap of the Question:

Para-jumbles are often tricky as even a single misplaced statement can make the whole answer wrong. The trap is often placed in some sentences which seem to possibly take 2 positions. This increases the chances of a faulty selection. Candidates must carefully follow the most logical and contextually coherent chain of thoughts to answer these questions.

Q30 Text Solution:

[Android App](#) | [iOS App](#) | [PW Website](#)

Essence of the question:

Here five sentences are given which are not in order. We need to arrange them in proper sequence so that a meaningful paragraph can be formed. We shall select an option which provides correct ordering of given sentences.

Explanation for the answer:

The correct sequence is 41253. This sequence is correct as it provides a clear overview of Rousseau's perspective on inequalities. Statement-4 sets the stage by introducing Rousseau's argument that violence and inequalities are not inherent to humans. Statement-1 then identifies the two types of inequalities that Rousseau discusses. Statement-2 highlights the greater concern Rousseau has for moral inequalities. Statement-

5 explains the source of moral inequalities and Rousseau's belief that they are preventable. And, finally, Statement-3 ties the previous statements together by summarizing Rousseau's perspective on inequalities as a challenge to the prevailing view that they are inherent to human nature.

Trap of the Question:

Para-jumbles are often tricky as even a single misplaced statement can make the whole answer wrong. The trap is often placed in some sentences which seem to possibly take 2 positions. This increases the chances of a faulty selection. Candidates must carefully follow the most logical and contextually coherent chain of thoughts to answer these questions.
